

djR Summer School of Rheology **18.-20. June 2024**

free for members of the working group djR!

General information:

Avenue:

Technical University of Berlin,
Department of Polymer Materials & Technologies
Ernst-Reuter-Platz 1 D-10587 Berlin

Duration of the Summer School:

Start: Tuesday, June 18th (morning)
End: Thursday, June 20th (after lunch)

Language:

English

Deadline for Registration:

May 18th, 2024 (limited places only!)

Registration:

Email to: drq@bam.de (concept registration djR Summer School 2024)

djR Summer School of Rheology

18.-20. June 2024

Confirmed lecturer:

- Prof. Ulrich A. Handge, Chair of Plastics Technology, TU Dortmund University
- Prof. Andreas Wierschem, Institute of Fluid Mechanics at the University of Erlangen-Nuremberg
- Prof. Dietmar Auhl, Department for Polymer Materials & Technologies at the TU Berlin
- Rheometry specialists from TA Instruments, Anton Paar, Thermo Fisher Scientific and Netzsch will provide equipment and supervise the practical sessions

Concept:

Inspired by the "panta rhei" (everything flows) philosophy, "**die junge Rheologie**" (djR) in cooperation with the **German Society of Rheology** (DRG) and the **Technical University of Berlin** organizes its first djR Summer School in rheology for 2024

The **djR Summer School** is aimed at graduate students, PhD students, Postdocs and professionals in the industry who are looking for a **first insight** into the field of **rheology**

We want to crosslink the **different backgrounds** of the participants to a large **interdisciplinary rheology team** to provide an "out of the box" **experience for each attendee**

The initiative is fully sponsored by the DRG, TA Instruments, Anton Paar, Thermo Fisher Scientific and Netzsch. It is therefore **completely free of charge** for the participants, who only have to register as **members of the working group djR and the DRG** and cover the costs of their stay in Berlin during these days
